12th International Styrian Noise, Vibration & Harshness Congress

The European Automotive Noise Conference

in cooperation with **SAE INTERNATIONAL**

www.isnvh.com

ISNVH 2022:
Inclusive Sustainable NVH
June 22-24, 2022 Graz / Austria

Call for Abstracts

Topics:

Apart from traditional topics, such as:

- powertrain, transmission and drivetrain NVH
- intake and exhaust acoustics
- flow noise and aeroacoustics
- tyre-road noise
- sound absorption and insulation
- NVH trouble-shooting and problem solving

- active noise and vibration control
- noise & vibration quality and perception, sound design
- full vehicle NVH including pass-by
- NVH target setting
- HVAC acoustics
- squeak and rattle
- structural dynamics

... we encourage the submission of contributions in the fields of:

- acoustic meta-materials
- smart surfaces / embedded sensors
- machine learning and data science for NVH
- interactive human-machine interfaces
- auditory and haptic perception, touch sound
- audio signal processing and reproduction

- simulators (VR, AR and MR)
- NVH and automated driving
- vehicle component fitness monitoring
- new instruments, transducers and measurement techniques
- interior of the future and seat NVH
- vehicle infotainment

Abstract Submission:

The abstract must be submitted online (www.isnvh.com) in English including the title, the list of authors, their affiliations and an abstract text between 200 and 250 words.

Important Deadlines:

Abstract submission: Aug. 15th, 2021
Please submit online at: **www.isnvh.com**

Full manuscript: **Dec. 8th, 2021**
End of review: **Feb. 28th, 2022**
Paper final version: **Mar. 31st, 2022**

General Information:

Congress Location:
CONGRESS GRAZ
Sparkassenplatz 1
8010 Graz, AUSTRIA

Congress Office:
VIRTUAL VEHICLE Research GmbH
Inffeldgasse 21A, 8010 Graz
